THE LEADING DATA STORAGE PROVIDER FOR TODAY'S BUSINESS OWNER

All computer hardware, discs and tapes eventually fail.

How secure is your data? Do you consistently backup?
Every day? Once a week? Once a month?
Is your backup stored offsite?
Even worse, is your backup stored onsite?
If you experience a fire, flood or theft,
is your backup really safe?

Now thanks to eSureIT™ from Intronis Technologies,
you can ensure all your data is safe and secure
with the same type of protection that only Fortune 500
companies previously enjoyed.

Automatic data backup >> Offsite data storage >>
IT'S NEVER BEEN EASIER TO PROTECT

The primary concern of every business owner is to keep their business up and running even in the event of an emergency such as a fire, flood or theft.

Protecting the computer files and databases accumulated since the day you first opened your doors is especially vital.

eSureIT™ from Intronis Technologies is the smart choice.

eSureIT™ automatically backs up files and stores them offsite on redundant servers in our main storage facility; another copy is stored in a different offsite location.

All files are encrypted using 256-bit military encryption technology – stronger than that used for many online banking systems – making your files nearly impossible to decipher. Only designated personnel have the encryption code; eSureIT™ personnel can never access your files.

eSureIT™ can store up to 30 different versions of files. eSureIT™ allows you to revert back to any of the previous 30 versions of those same files.

You always have immediate access to stored files. Files can be restored any time, day or night.

eSureIT™ is completely seamless – work can continue without interruption as files are being backed up.

Easy >> Affordable >> Modular

Data Security Plan I

Ideal for locations with less than 10 computers requiring backup; start off with ~~1~~ GB of storage space — enough space for approximately 100,000 pages of text. **10**

\$49.95/month for one account with one computer

\$19.95/month for each additional computer and an additional 1GB of overall storage space

\$4.95/month for an additional ~~500~~ MB of overall storage space

1000

Data Security Plan II

Ideal for locations with 10 or more computers requiring backup; start off with ~~20~~ GB of storage space — enough space for approximately 500,000 pages of text. **50**

\$199.95/month for one account with ten computers

\$14.95/month for each additional computer and an additional 1GB of overall storage space

\$4.95/month for an additional ~~500~~ MB of overall storage space.

1000

Home Office Security Plan

A very affordable plan for one home computer; start off with ~~250~~ MB of overall storage space — enough space for approximately 6,250 pages of text. **1000**

~~\$14.95~~ **\$9.95**/month for one computer, one account

~~\$9.95~~ **\$4.95**/month for an additional 500 MB of storage space

No contracts, no discs or drives, no software upgrades, or IT staff required to protect computer files and databases. You can't afford *not* to back up with

300 Grand Avenue, Englewood NJ 07631 Ph: 201-569-0507 Fax: 201-586-0200

Save time and money. Protect against data loss today.

To use eSureIT™ from Intronis Technologies, follow the signup link at www.intronis.com.

Our easy-to-use wizards will guide you through the signup process for your first backup.

There are no contracts to sign and there's no obligation to long service agreements. Simply choose from three plans to accommodate the amount of storage needed and pay a small monthly fee.

Since eSureIT™ software is modular, you will never run out of storage space. Should you run short of space while backing up, we'll continue the backup and notify you via e-mail that you exceeded your storage space. You'll be invoiced for the additional storage space in your next billing cycle.

Without a doubt, eSureIT™ from Intronis Technologies, is the best way to protect against data loss — and the high cost of system upgrades.
